

KSeF 2.0 launches on February 1, 2026 - the office is ready to fully support clients.

Igor Kyrzewski · 29.01.2026 · Clients

In connection with the upcoming launch of the mandatory National e-Invoice System (KSeF), we inform you about the current state of implementation and how our accounting office will support you in this process – at no additional cost for the KSeF implementation.

In connection with the upcoming launch of the mandatory National e-Invoice System (KSeF), we inform you about the current state of implementation and how our accounting office will support you in this process – **with no additional fees for implementing KSeF.**

Key dates and facts:

- The production version of KSeF 2.0 will be launched on **February 1, 2026** – from that day on, it will be possible to authenticate and send invoices to the system.
- Before this date, it will not be possible to collect access tokens – their generation will only be available in February.
- **In 2026, no fines will be imposed** for technical errors or issues related to KSeF – confirmed by the President of the National Revenue Administration.

Our solutions - simple and free:

We offer two convenient integration options with KSeF, tailored to how you currently issue invoices:

1. **Full service in our panel** You issue invoices directly in our system → we automatically send them to KSeF. Just add a token with permissions for sending and reading – the rest happens automatically.
2. **Continuation in your current program** (e.g., Fakturownia, wFirma, etc.) You issue invoices in your program (as long as it supports sending to KSeF), and we retrieve them from KSeF for records and settlements – just a read-only token is

needed.

We invite you to a free online meeting

On **Friday, January 30, 2026, at 3:00 PM** (Warsaw time), we will conduct a practical meeting, during which:

- we will discuss the details of KSeF,
- we will show step by step how to generate and add a token,
- we will answer all your questions.

Link to the Google Meet meeting: <https://meet.google.com/tmy-ezvi-sjb>

The meeting will be **recorded** and made available to all clients – you will be able to watch it at any time.

Our team is fully prepared and ready to assist at every stage of the implementation. If you have any questions, please feel free to contact us via email or on Telegram chat.

Thank you for your trust and cooperation!
